

PDF File Size Optimizati (Part 2)

Learn how to store monochrome
optimize PDF file size.

By Raju

Last month, you saw how PDFOne .NET
optimized PDF document size on its own. This
month, you will learn how YOU can optimize
PDF file size on your own.

If your PDF files contain a lot of monochrome
images, say scanned copies of paper
documents, then you could store the images
CCITT3 format rather than in BMP or JPEG.

CCITT3 image compression format is optimiz
PDF documents with CCITT3 images are a lot
or JPEG images.

To illustrate this, I used a black and white im.
two PDF documents. The first document was i
